

# CONVEYING

## FULL LINE OF EQUIPMENT FOR YOUR PROCESSING, MIXING, CONVEYING AND FILLING NEEDS.

Since 1982, Kase Horticulture has engineered and manufactured quality products for the Horticultural bulk material handling industry. We specialize in converting your material handling problems into realistic and cost-effective solutions.

### 4100 SERIES MODULAR BELT CONVEYORS

- > Belt widths of 10", 15" (25 cm, 38 cm)
- > Overall lengths of 5', 12', 20' (1.5 m, 3.6 m, 6.1 m)
- > Load capacity of 100 to 500 lbs (45 to 226 kg)

Kase Modular Belt Conveyors are compact, light-weight, portable, and well suited for conveying potted plants, boxes or other containers. Each unit will convey horizontally or at a slight incline. Belts are designed with a V-guide for self-tracking. Belt tension is easily adjusted at slots in the side of the aluminum slider pan. Conveyor may work as a single unit or as a connected series. Other options include side rails and diverter bars.

### 4300 SERIES SOIL CONVEYORS

- > Belt widths of 16", 24" (40 cm, 61 cm)
- > Overall lengths of 6' to 30' (1.8 m, 9.1 m)
- > Load capacity of 50 cu. yds. (38 cu. m) per hour

Kase Soil Conveyors efficiently move a variety of bulk materials. Ideal for loading trucks or soil carts and for taking discharge from soil mixer or bale processor. Made-to-order to meet your incline requirements and discharge heights. Upturned slider sides create a troughing belt. Load skirts are optional to increase the capacity of the conveyor. Other options include belt widths of 16", 24", and 36", cleated belt, dust covers, load hopper and more.

Left: Galvanized, high-temp soil conveyors with pneumatic motor option  
Right: 4040 Manual Transplant Conveyor

### STANDARD CONVEYOR OPTIONS:

- > Motor and controls, including fixed, variable or reversing
- > Mobility options, including casters, pneumatic, or semi-pneumatic wheels
- > Stand options, including adjustable, inclined, or fixed height

Our vast capabilities and quality products make Kase Horticulture the clear choice. We specialize in transforming problems into quality engineered solutions. You can count on us!

### KASE CONVEYING OPTIONS PROVIDE:

- > Efficient methods of moving loose or packaged product
- > Custom options to meet your production needs
- > Ability to integrate into new or existing production lines
- > Heavy duty construction for years of service
- > Easy, minimal maintenance
- > Customer service and parts through Kase
- > All equipment is made in the USA

Many options are available. For equipment specifications, go to [kaseworks.com](http://kaseworks.com) or contact Kase at 254.694.5846 or [sales@kaseworks.com](mailto:sales@kaseworks.com)

**OTHER CONVEYING OPTIONS INCLUDE:** Top: Reversing 4800 Series Overhead Conveyor  
Bottom Left: 6262 Tracking Trailer in 5'x10' size > Bottom Right: 2211 Water Tunnel in stainless steel option

Left: 36" wide Custom Conveyor for soil production > Right: Modular conveyors with MTO wheel stands
