MIXING

FULL LINE OF EQUIPMENT FOR YOUR PROCESSING, MIXING, CONVEYING AND FILLING NEEDS.

Since 1982, Kase Horticulture has engineered and manufactured quality products for the Horticultural bulk material handling industry. We specialize in converting your material handling problems into realistic and cost-effective solutions.

3403 3/4 YARD MIXER

- > 3/4 cu. yd. (.58 cu. m) barrel capacity
- > 1.5 HP motor standard
- > Discharge height 24" (61 cm)

Ideal for small, controlled batch mixing within the 10 GA steel barrel. Utilizes center discharge with easy open gate. Custom options, including integral direct drive or chain & sprocket drive, are available.

3413 1 1/4 YARD MIXER

- > 1 1/4 cu. yd. (.96 cu. m) barrel capacity
- > 5 HP motor standard
- > Adjustable discharge height from 18" to 36" (46 to 92 cm)

Good for medium size batch mixing within the 10 GA steel barrel. Utilizes an end discharge with easy open gate. Also available with 7.5HP motor. Custom options, including integral direct drive or chain & sprocket drive, are available.

Standard Mixer Options Available:

- > Casters
- > Abrasive Resistant (AR) Barrel and Auger
- > Right Hand/Left Hand Discharge
- > Foot Pedal Control
- > Hinge Assisted or Removable Lid

Our vast capabilities and quality products make Kase Horticulture the clear choice. We specialize in transforming problems into quality engineered solutions. You can count on us!

KASE BATCH MIXERS PROVIDE:

- > Rapid, complete and uniform mixing
- > Paddle auger design that gently lifts and blends soil material
- > Water spray pipes to moisten mix
- > Standard safety grate with splash guard for employee protection
- > Heavy duty construction for years of service
- > Easy, minimal maintenance
- > Customer service and parts through Kase

All equipment is made in the USA

Many options are available. For equipment specifications, go to kaseworks.com or contact Kase at 254.694.5846 or sales@kaseworks.com

3423 2 YARD MIXER

- > 2 cu. yd. (1.53 cu. m) barrel capacity
- > 7.5 HP motor standard
- > Adjustable discharge height from 23" to 45" (59 to 115 cm)

Medium to large batch mixing within the 3/16" plate steel barrel. Ideal for heavier soils. Heavy duty options available depending on media type. Comes standard with a removable barrel and handwheel discharge gate. Also available with 10HP or 15HP motor. Custom options, including integral direct drive or chain & sprocket drive, are available.

3442 4 YARD MIXER

- > 4 cu. yd. (3.06 cu. m) barrel capacity
- > 20 HP motor standard
- > Discharge height of 42" (107 cm)

Highest capacity unit for large batch mixing within the 3/16" plate steel barrel. Ideal for heavier soils. Heavy duty options available depending on media type. Easily fill the mixer via a front-end loader or conveyor. Comes standard with a removable barrel and handwheel discharge gate. Custom options, including integral direct drive or chain & sprocket drive, are available.
